Sir:

**INFORMATION DISCLOSURE STATEMENT**

As suggested by 37 C.F.R. 1.97, the undersigned attorney brings to the attention of the Patent and Trademark Office U.S. Patent 6,111,864. Apparently U.S. Patent 6,111,864 corresponds to JP 10-155173 reference, which has been previously cited.

In addition, the undersigned submits a copy of a Written Opinion mailed September 27, 2001, in the corresponding PCT application. Included with the Written Opinion is a document which appears to be a rather rough English language translation (source uncertain) of JP 10-155173.

Official citation and consideration of all the attached documents is requested. Please return to the undersigned a copy of the attached PTO-1449 with the examiner's initials in the left column [MPEP §609] with the next communication.

The filing of an Information Disclosure Statement shall not be construed as a representation that a search has been made [37 C.F.R. § 1.97(g)], an admission that the information cited is, or is considered to be, material to patentability or that no other material information exists. Further, the filing of an Information Disclosure Statement shall not be construed as an admission against interest in any manner [Commissioner's Notice of January 9, 1992, 1135 O.G. 12-25 at 25].

MULLER
